A complete diagnostic laboratory in your hand

Spirodoc®

- **MODULAR**

  Available in 3 versions with touch screen display:
  - *SPIROMETER* (MIR code 910600)
  - *OXIMETER* (MIR code 910606)
  - *SPIROMETER AND OXIMETER* (MIR code 910610)

- **FLEXIBLE**
  - *Stand alone complete operation with large memory capacity (10.000 spirometry tests)*
  - *On line tests both wireless (Bluetooth connection) and via USB connection*

- **COMPLETE**

  WinspiroPRO® PC SOFTWARE (Windows environment), always included at no charge, with free upgrades and EMR capabilities

Optional oximetry

- **MULTIPURPOSE**
  - *Spirometry selectable tests: FVC, VC&IVC,MVV, PRE and POST BD with wide selection of predicted values*
  - *Oximetry selectable tests: Spot, 6 Minute Walk Test, sleep analysis*
  - *ediary: fast on-screen symptoms entry*
  - *"3D Oximeter®" : movement sensor to correlate the SpO2 variations and the physical activity (walk counter, movement analysis, VMU)*

PC based Spirometer with oximetry option

Minispir®

- **MODULAR**

  Available in 2 versions:
  - *SPIROMETER* (MIR code 911000)
  - *SPIROMETER AND OXIMETER* (MIR code 911010)

Optional oximetry

- **EASY-TO-USE**
  - *Real time inspiratory and expiratory curves*
  - *Pediatric incentives*
  - *Spot Oximetry test*

- **COMPLETE**

  WinspiroPRO® PC SOFTWARE (Windows environment), always included at no charge, with free upgrades and EMR capabilities

Unrivaled in breath measurement

Disposable turbine FlowMIR®
changes the game!

Simple, Accurate, Hygienic
Packed in a cleanroom, hygiene is 100% guaranteed
1 box/50 pieces (MIR code 910004)

How to use: step-by-step quick tutorial
Spirodoc®

Stand alone operation

1. *Select the type of test (or select "Fast Test" to perform the tests without entering patient data)*

2. *Enter a new patient or access patient data (not required for "Fast Test")*

3. *After completing the test press "POWER" key, results will be displayed on screen*

4. *Connect the device to the PC via USB to download the archive*

5. *If necessary, press the wrench icon on the menu to access device settings*

On Line operation via USB connection

1. *Plug in the device via the USB cord provided*

2. *Follow winspiroPRO® instructions to perform an on line test and access all advanced features provided by winspiroPRO® software*

On Line operation via Bluetooth®

1. *Follow winspiroPRO® instructions to perform an on line test "wireless" and access all advanced features provided by winspiroPRO® software*

Minispir®

On Line operation via USB connection

1. *Plug in the device via the USB cord provided*

2. *Follow winspiroPRO® instructions to perform an on line test and access all advanced features provided by winspiroPRO® software*

Recommendations

- *Use a noseclip and a disposable turbine FlowMIR® or a MIR reusable turbine flow sensor for spirometry tests and make sure patient is comfortable*

- *Correct spirometry technique needs 3 acceptable tests for accurate results*
